

### **3 HTi Expands Team and Product Portfolio to Support Growing Customer Base**

Mt Laurel, NJ, Nov 13, 2014 — 3 HTi, an authorized PTC Channel Advantage Reseller, announced today that it has expanded its Sales team to meet the demands of PTC's growing Channel Advantage Program across the USA.

Stephen Taylor (New England), David Masingill (Southeast), Christopher Jenkins (Florida), and Matthew McHugh (Middle Atlantic) cut their teeth at Siemens, Infor, and CADD Edge; and, together, bring over 80 years of experience selling CAD/CAM/CAE and PLM solutions like SolidWorks, UG, NX and Team Center.

*"We're expanding our team of experienced specialists to keep pace with our dramatic growth over the past year, so that we can continue to provide the unparalleled support our customers value above all else," said Director of Sales Operations Robert Romanoski.*

Their Sales team isn't the only area of new growth. 3 HTi has also expanded its portfolio of solutions to take advantage of emerging technologies.

They have partnered with Mentor Graphics to now offer its line of EDA products, including the award-winning CFD solutions under the Mechanical Analysis Division (formerly Flomerics).

For rapid prototyping and direct digital manufacturing solutions, 3 HTi joined forces with 3D-printing giant Stratasys Corporation to offer an assortment of its commercial 3D printers and printing solutions.

*"Our customers are excited to explore these next-level solutions with the best sales team in the business — and so are we," Romanoski said.*

Over the coming year, 3 HTi will continue to grow their team of experts and expand their customer base in the USA.
